

“Digital Video Content Development for Human Resources Development of Rubber Industry”

11 CDs of different topics were produced.

No.	Topic	Product codes
1.	Introduction to Polymer Science	DVD/IR-IPS
2.	General Purpose Rubbers	DVD/IR-GPR
3.	Rubber Compound Design	DVD/IR-RCD
4.	Specialty Synthetic Rubbers	DVD/IR-SSR
5.	Latex Formulations	DVD/IR-LF
6.	Metal / textile to rubber bonded composite materials"	DVD/IR-M/TRC
7.	Processing techniques of elastomer for non-tyre products	DVD/IR-PT-NTP
8.	Processing techniques of rubber in tyre industry	DVD/IR-PT-TI
9.	Testing of Latex Products	DVD/IR-TLP
10.	Physical Testing of Rubber products	DVD/IR-PTRP
11.	Latex Product Manufacturing Technology	DVD/IR-LPM

Socio-economic benefits:-

- The course content (DVDs) is good for training of fresh employees in any type of industries / institutions / companies.
- It is also can be used for refreshment course and re-training of personals which is practically not possible in a class room training courses.
- It is expected that the DVC course will be useful to all the rubber & rubber allied industries. The project will benefits all

- Members of IRMRA,
- Small to Medium Scale Rubber Industries
- Rubber Testing Laboratories
- Rubber product end Users
- Public sectors
- Schools
- Colleges
- Research Institutions etc
